

Jackal MWMIK

How to Install ?

1. Place the "mwmik" folder into [Gamefolder]\update\X64\dlcpacks\
2. With OpenIV, extract [Game folder]\update\update.rpf\common\data\dlclist.xml and edit this with Notepad++.
Add the following entry:
dlcpacks:\mwmik\
3. Now you are done, you will need a trainer with "spawn by name" function (Enhanced Native Trainer for example) to spawn the vehicle type in:
"mwmik"
